Year-End BED Student Accountabilities

Before April 12, 2018

As of this week, Basic Education Department (BED) students have ended their classes and are just completing all their academic and other related requirements to be considered finished and promoted to the next grade/year level for School Year 2018-2019. Related to this, all services that are to be extended to all students have been delivered by the school through our diligent and hardworking teachers. In this regard, we would like to remind all guardians and parents to settle all financial accountabilities at the soonest possible time and/or before the April 12 Issuance of Cards.

As a private educational institution, our financial sustainability and viability hinges on the timeliness of payments by our guardian and parents in exchange for the educational services given to our students. It is therefore expected that guardians and parents very much adhere to the payment deadlines and mode that they have chosen at the beginning of the school year. Failure to comply with this reminder will result to the withholding of academic credentials and deferment of enrollment for the next school year. We request the assistance of our Basic Education Parent Association (BEPA) to disseminate this information of the settlement of financial accountabilities to our guardians and parents.

We expect everyone's adherence and cooperation to this important reminder from the school.
