Blessing of Macabud-Salikneta Road and Food Processing Plant **3**

In the late 1950's THE FURROWS was the name of the official student publication of the Araneta Institute of Agriculture (AIA). This institution was first known as AIA when it started as an agricultural school in 1946.

The concept of THE FURROWS was adopted once more in 2002 when Gregorio Araneta University Foundation (GAUF) became a full-fledged member of the Lasallian Family; and henceforth, 'twas called the DE LA SALLE-ARANETA UNIVERSITY. Since the turnover up to school year 2005-2006, it became the official institutional newsletter.

Today, De La Salle Araneta University, now enriched with the heritage of Lasallian schools and a partnership with a 334-year old educational tradition that has its roots in Rheims, France, has recreated and revived THE FURROWS, as it informs its collaborators and stakeholders through its regular publication and dissemination.
