**The Problem and Review of Related Literature**

**Heading 2**

**Heading 3.** Indent the first line of every paragraph. The manuscript is double-spaced for readability. There is no need for extra spaces between headings and body text. To avoid extra spacing, check that the spacing between paragraphs is set to 0 pt. To do this, on the Home tab, under Paragraph, click Line Spacing, and then click Line Spacing Options. Under Spacing, in the Before or After boxes, enter 0 pt.

**Heading 4.** Align the text to the justified margin.

**Heading 5.** Now I will introduce a block quotation.

For a block quotation, indent the entire paragraph one half inch. Double space between body text and the block quotation as well as between lines in the block quotation. Use the same size typeface for the rest of the paper. Don't forget to cite the source of your quotation (Source, year, page number)
